

TARGET Antibiotic Webinar Series

November 2016

TARGET ANTIBIOTIC
WEBINAR SERIES

Since the beginning of November, a series of TARGET antibiotic webinars have been running to discuss and highlight strategies that can be implemented to improve antibiotic prescribing. The webinars have been prepared and presented in collaboration with Public Health England, Primary Care professionals and The British Society for Antimicrobial Chemotherapy. They will run every Wednesday on the following dates covering the topics listed below from 1:30 – 2:15pm:

- 2nd November 2016 – Introductory case studies
- 9th November 2016 – Assessing the need for antibiotics
- 16th November 2016 – Managing Patient expectations
- 23rd November 2016 – Back up prescriptions
- 30th November 2016 – Prescribing in UTI
- 7th December 2016 – Antibiotics for children
- 14th December 2016 – Common practice approach

Professionals can register to access the live webinars through the following link: <http://www.target-webinars.com/>. The webinars are also available to view later, and questions may be asked both during and after the session. Registered attendees can gain up to 7 hours of CPD once feedback has been submitted.
