

Managing medicines for adults receiving social care in the community e-learning courses

Domiciliary care e-learning courses are now available to staff in our organisation.

This leaflet explains how you can access the courses and provides a brief overview of the e-learning content and PrescQIPP, who developed the courses.

How to access the e-learning

Register for an account

- Unless you already have an account you will need to register on the [PrescQIPP e-learning platform](#)
- Please select the correct CCG organisation when registering as this will ensure that you are provided with access to the correct courses

Log in and get started!

- Log into the [PrescQIPP e-learning platform](#)
- Find the course you want to start and select 'Access course'

Save your progress and come back later

- All courses consist of modules, case studies and a final exam with a 70% pass mark
- On passing the course a certificate of completion will be issued
- The courses should take between 2-3 hours each and it is recommended that they are carried out in stages rather than one sitting

About the courses

These e-learning courses support the implementation of NICE guideline 67 '[Managing medicines for adults receiving social care in the community](#)'.

Course 1 provides a foundation in the essential medicine-related processes that social care providers need to consider.

Course 2 covers the practical issues related to medicines administration support for all social care workers in a client-facing role, upskilling them to administer different types of medicine formulations.

The Care Quality Commission (CQC) was a stakeholder in the development process of this e-learning. The courses are CPD accredited and carry endorsement

statements from the National Institute for Health and Care Excellence (NICE). PrescQIPP is a Skills for Care endorsed provider of e-learning courses for the adult social care sector. courses for the adult social care sector.
