# Minor Eye Problems?

A stylized illustration of a human eye with a blue iris and black eyelashes, positioned to the right of the main title.

## Dry, Tired eyes?

East Lancashire CCG & Blackburn with Darwen CCG will not fund the prescribing of medicines and treatments for minor conditions where products are readily available to buy over-the-counter at supermarkets and pharmacies. This includes mild/moderate dry, tired eyes.

By choosing self care you help to save valuable NHS time and money which can be spent on life saving treatments.

**Speak to your optometrist/pharmacist for help and advice about which product you should purchase to manage your symptoms.**
